DATA SOURCE & NOTES

- Money accounts (Cash in Hand, Petty Cash, Bank, Merchant Clearing, OMC Wallet, Owner) list the Ledger Entries of that Financial Account; In raises the balance, Out lowers it, as in the Cash Book.
- Party ledgers read customer_transactions / supplier_transactions: customer Debit = credit sale or adjustment, Credit = collection; supplier Credit = purchase, Debit = payment. Single-entry: no contra account is posted.
- An expense or income head has no account of its own: its ledger is the period's Expenses (or Income) of that head, with a running total from the start of the financial year (01 Apr).
- Voucher numbers on expenses, income and supplier payments (Voucher no, marked *). (needs: voucher numbering, group B)
